

LINEN CLUB

“After a long tapasya of 60 years, Aditya Birla Group came up with the wonder fabrics called “**Linen Club**”, which made me get involved and be a part of their team.

Made out of Finest French and Belgium fibre, manufactured out of integrated latest European technology.

India is now proud to have the world’s finest linen fabrics from **Linen Club**.

Unfortunately, there are some spurious, inferior look alike synthetic blends, ramie and other synthetic fabrics being sold to consumer as Linen fabrics, but they are fake.

To have true comfort and elegance of Linen, wear only **Linen Club** from Aditya Birla Group and create your own fashion statement. ”
